Facebook Group Communication

Jereme Lamps, Jingxian Zhang,
Liang Tao, Sharanya Bathey

Motivation

- Receive tons of notifications from Facebook groups and have to scroll through 100 posts before you get to an important one

- We want to filter and prioritize based on group participation and show you the most relevant notifications!

Audience

- Anyone who is part of lots of Facebook groups and has multiple interest areas

Questions we intend to Answer

- Find the most important post based on group participation
- Look at group members activity levels
- Browse posts more efficiently

Karrie G. Karahalios
September 11 at 1:22pm

Hi All, thanks to those who presented today and to all who wanted to but there was not enough time 🙂 Tuesday's class will be lecture again with critiques due. Because we are not presenting more projects Tuesday, please go onto PeerStudio to look at other students' work.

Jarai Carter How do we view others' work on peerstudio?
September 12 at 2:23pm · Like

Karrie G. Karahalios HI Jarai, there should be an option to 'Review' the work.
September 12 at 3:09pm · Like

Jarai Carter When I click on that, it continually shows only my group's project.
